Johnny
Guitar & Vocals

Johnny picked up his first guitar in 7th grade and armed with a few chords he learned from his father. He learned the rest by ear and started his first band Intruder 6 months later. Johnny over the last 40 years he has performed with a few of the top cover bands in and around the Orlando area, which got to open for some nationally touring acts like, RED Speedwagon, the Romantics and more. He grew tired of the cover band circuit and decided to challenge himself a bit more by creating two tribute bands, Ultimate Rush Tribute and most recently Ultimate Floyd Tribute that you are seeing tonight. Johnny enjoys honoring two of his favorite guitar players (David Gilmour and Alex Lifeson) during these shows and tries his best to emulate the guitar tones and parts, note for note. It's a tall order, but each performance gets a little bit closer.

COMMENTS AND FEEDBACK

- A tribute band can be a risky proposition. This group however was amazing. They brought back all my teen angst along with the harsh reality of failed relationships. ... Simply put this was an amazing concert and I am so grateful to have shared it with a friend.

- I saw this band at a small venue in Lakeland, FL. I would classify myself as a serious Pink Floyd fan; and tribute bands rarely match my expectations. This group was a very pleasant exception. I was blown away. They are passionate about the music. First they nailed Dark Side of the Moon and then crushed The Wall for their second set. The venue was a little hot (not their fault) and I can't hear very well this morning (their fault) ... but I couldn't be happier. It was Money well spent and I will seek this group out again in the near future.
